ABOUT ME

I'm a passionate Front-End developer. Experienced in **HTML, CSS, JavaScript,** and **React**, I strive to provide clients with outstanding user experiences. With strong teamwork skills and a background in B.Communications, I effectively merge technical expertise with effective communication skills. I'm always eager to expand my skills and stay up-to-date. Let's collaborate on projects that push boundaries and exceed expectations.

PROJECTS

Re:Coded   **Online**

RefuBook   *Jan 2023 - Feb 2023*

- A powerful application highlighting my innovative problem-solving abilities.
- Developed and implemented responsive website design and features that help the user to log in/out of the website.
- Developed with three team members.
- Led the development progress for a week, I was responsible for dividing the tasks alongside leading the team members and checking the final results of the developed features.
